

Coalition Update November, 2019

New Grant Cycle: 5 Annexes Over the Next 5 Years

This Year: Pediatric Annex

Pediatric Annex

- Requirement
 - Develop a **coalition-level pediatric surge annex** to complement the base HCC response plans
 - Improve the ability to **manage a large number of pediatric patients** in a mass casualty incident
- [Healthcare Coalition Pediatric Surge Annex Template](#) includes general headers and descriptions HCCs can incorporate while developing their own plans

Next Year's Coalition Funding (2020/2021)

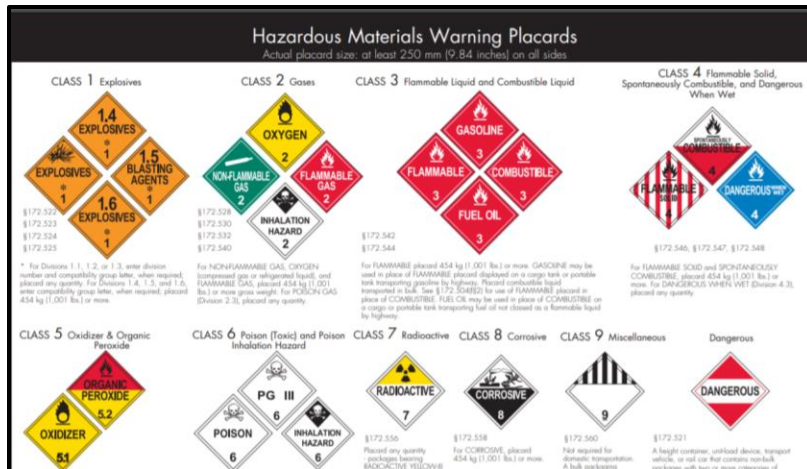

- ***Coalition Budget due by 1/31/20***
 - ***No limit placed on what can be requested***
 - ***Justification for requests must be provided to address gaps (CAT, exercise AAR, or HVA/risk assessments)***

Ebola Grant Ends in 2020

Submission Deadlines for Ebola Funds:

- Vendor payment 3/15/20
- Reimbursement 4/1/20

Hazardous Materials Markings, Labeling and Placarding

*This is a handy
visual aid for
First Responders.*

The Department of Transportation (DOT) Pipeline and Hazardous Materials Safety Administration (PHMSA) offers the “[DOT Chart 16 - Hazardous Materials Markings, Labeling and Placarding Guide](#),” available as a printable 4-page document as well as a mobile phone app

Lauren Johnson – New HPP Planner

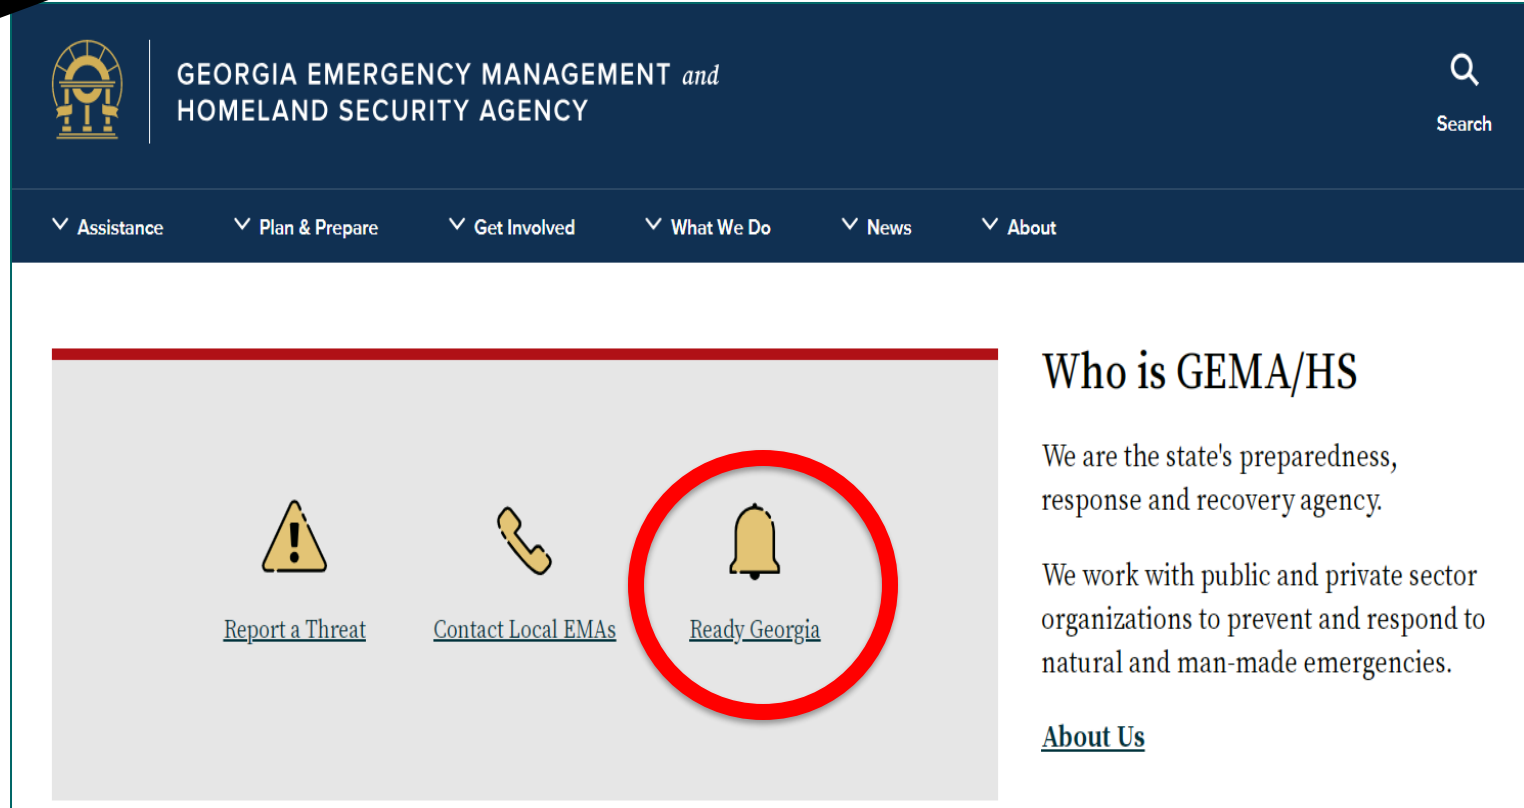

Lauren Johnson from Snellville, GA. A recent graduate from the University of Georgia with an MPH in Disaster Management this summer. She was given a chance to work on a few big projects for the University of Georgia's office of Emergency Preparedness and for the University's Athletic association, including athletic venue emergency planning and the implementation of vital programs on campus such as the Yellow Dot program and Stop the Bleed. She was awarded an athletic scholarship to compete on the University's gymnastics team for 5 years where she learned discipline, communication skills, and how to be a team player. She's excited to be starting her career with DPH.

Disaster Mental Health

Disasters come in many forms. They may occur suddenly or with advance warning. Disasters may be human-caused or an act of nature. Some disasters have names like Katrina or flight numbers while others have faces that we see on the television. Many are known simply as house fires or accidents. All involve sudden loss and profound tragedy in people's lives. Whether airplane crashes, hurricanes, infectious disease, school shootings, acts of terrorism, or something else, disasters have both physical and mental health components and consequences. This site, sponsored by the Georgia Department of Public Health and the Georgia Department of Behavioral Health and Developmental Disabilities (DBHDD) addresses the Mental Health components of disasters.

Description automatically generated

Patient Tracking & Patient Placement

- Patient Tracking and Patient Placement are separate systems
- Presentation material is available under the Public/Shared Folder on www.gha911.org at:
<https://library.gha911.org/apps/files/?dir=/Shared%20Folder/Public%20Folder/Patient%20Evacuation%20and%20Placement&fileid=82759>

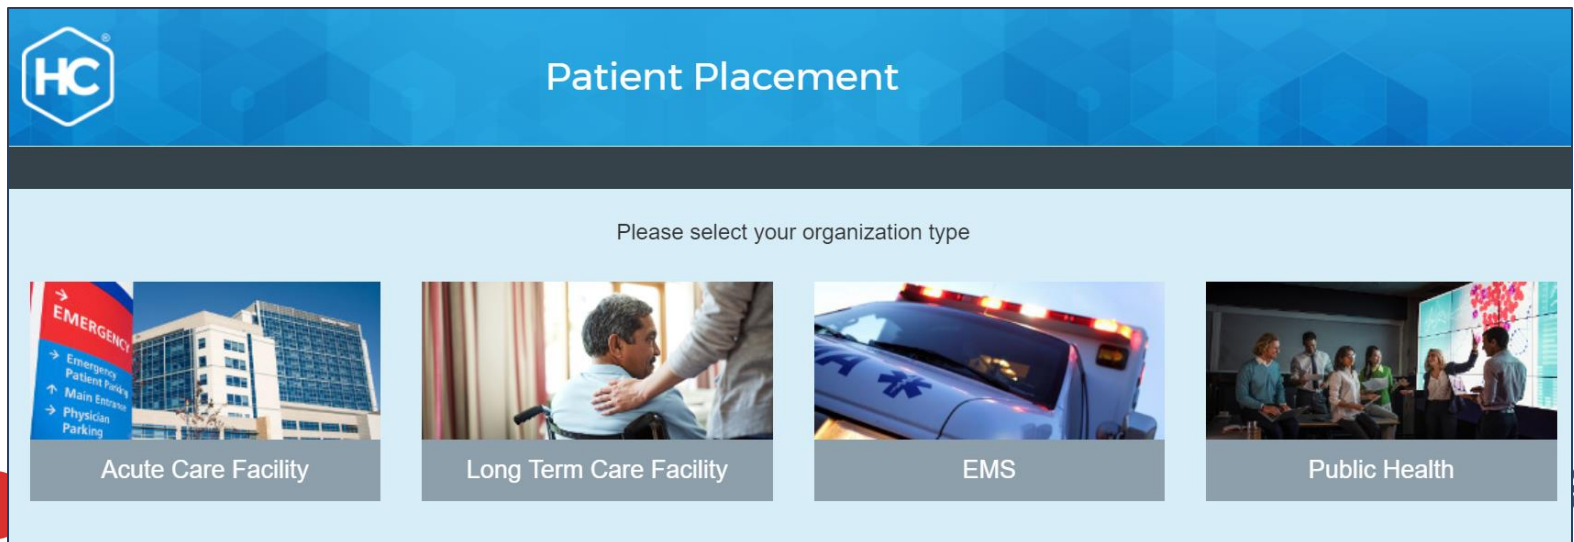

Patient Tracking

- **Patient Tracking** website: <https://patienttracking.gha911.org>
- Technical Support
 - GER Help Desk – support@ger911.com
 - 1-866-404-6911

The screenshot shows a web browser window displaying the Patient Tracking application. The browser's address bar shows the URL <https://patienttracking.gha911.org/hcsapp/#/main/workspace/28>. The application interface features a top navigation bar with the 'HC STANDARD 4' logo and a menu of icons for Home, Notifications, Dashboards, Workspaces, Bookmarks, and Help. A user profile for 'Adrianne' is visible in the top right corner, indicating a login time of 11:06:17 AM. Below the navigation bar, the main content area is titled 'Event Patients' and includes a search bar labeled 'Search all workspace items'. The interface is divided into three main sections: 'OVERVIEW' on the left, 'MATRICES' in the center, and 'CHARTS' on the right. The 'OVERVIEW' section contains a sidebar with icons for CHARTS, MATRICES, and MAPS. The 'MATRICES' section displays a table with a header 'Event Patients' and several empty rows. The 'CHARTS' section displays a list of three items: 'Event Patients - Originating Facility', 'Event Patients - Transport Destination', and 'Event Patients - Triage Status'.

Patient Placement

- **Patient Placement** website:
<https://patienttracking.gha911.org/patientplacement>
- Operational Support
 - Email: medtransport@gema.ga.gov
 - 1-800-TRY-GEMA (State Operations Center)
 - Ask to speak to someone at the ESF-8 desk

Inventory of Old Patient Tracking Devices

- Devices being inventoried
 - Hand held devices (MC-65)
 - iPad Airs
- All devices are considered Federal Assets and must be accounted for and listed in iCAM, the State's inventory management system
- *Let your Coalition Coordinator or Facilitator know if you have any of these devices*

Outbreak of Lung Injury Associated with E-Cigarette Use or Vaping

HEALTH ADVISORY Imminent Health Risks of Electronic Cigarettes and Vaping Devices

10/9/19

The Georgia Department of Public Health is issuing this health advisory to inform the public of the imminent health risks posed by electronic cigarettes or other vaping devices. Serious lung injuries, and in some cases death, have been linked to e-cigarettes or other vaping devices and the vaping products used in them. The Centers for Disease Control and Prevention (CDC) and state health departments are investigating, but the specific cause of the lung injuries remains unknown.

- Thirty-three deaths have been confirmed in 24 states
- THC is present in most of the samples tested by FDA to date, and most patients report a history of using THC-containing products

Measles Outbreak in Georgia

- Seven total cases in Georgia for 2019
- For more information about measles:
 - ✓ <https://www.cdc.gov/measles/index.html>

Hepatitis A Outbreak in Georgia

- Over 250 infections since 6/1/18
- Nine times higher than in 2017
- **69%** required hospitalization
- Commissioner Toomey and Dr. Drenzek sent out a letter on **4/24** regarding this outbreak

WHO Declares *Ebola Outbreak* in DRC

a Public Health Emergency of National Concern

7/17/19

- HHS/ASPR CIP and interagency PPE-specific supply chain readiness calls with manufacturers, distributors, and other healthcare supply chain partners are underway
- CDC activated its [Emergency Operations Center \(EOC\)](#) on June 13, 2019 to support the inter-agency response to the outbreak

Infectious Disease Protocol

Remember to:

1 - Identify

2 - Isolate

3 – Inform:

Call 1-866-PUB-HLTH

Recommendations for Healthcare Personnel

- Ask about patients' travel histories
- Consider the possibility of EVD in patients who present with fever and severe headache, fatigue, muscle pain, vomiting, diarrhea, abdominal pain, or unexplained bleeding (e.g., bleeding gums, nose bleeds)
- Check the Travel Clinical Assistant for up to date information on current travel-related diseases: <https://dph.georgia.gov/TravelClinicalAssistant>

Recommendations for Healthcare Personnel

- If the patient reports a history of recent travel to one of the outbreak areas in DRC and have consistent symptoms, immediately call **1-866-PUB-HLTH (1-866-782-4584)** and **ASK SPECIFICALLY to SPEAK WITH a DPH Medical Epidemiologist** for consultation
- The Med Epi will conduct a risk assessment and facilitate next steps as appropriate, for example, engaging the Infectious Disease Network (IDN)

Travel Clinical Assistant (TCA)

The Travel Clinical Assistant provides post-travel clinical information on travel-related diseases for 231 countries. Diseases with recent outbreaks occurring in the last 2 years are listed first. For recent outbreaks, information on clinical symptoms, transmission modes, infection control, and reporting to the Georgia Department of Public Health are provided. The second table lists additional endemic and/or travel-related diseases that may be acquired by travelers to a country. Disease links are provided for additional information on symptoms, transmission, testing, and/or treatment.

Pre-travel vaccine recommendations can be found [here](#).
